Introduction

Working with Nature to improve outdoor water is our passion and the Outdoor Water Solutions brand brings together products that are eco-friendly and safe for fish and the environment. If you are looking for ways to improve the health of your pond or lake; get rid of algae and moss, bacteria and odor; or just want to have a pond that is clean and clear for fishing, livestock use, boating and even swimming, we have the solutions for you.

The Outdoor Water Solutions Team

Website: Visit the OWS website www.outdoorwatersolutions.com for testimonials, pictures of working windmills, and additional information about our products.

Dealers: The OWS brand is available at dealers throughout the U.S. and Canada. Please contact us today for a dealer in your area or to become a dealer. Call toll-free: 866-471-1614.

“Over a fascinating 30-year career in the fisheries management business, I haven’t seen anything change our ability to take care of ponds and lakes as aeration has. Nature moves water horizontally with wind, but Outdoor Water Solutions has figured out how to harness that breeze to create vertical water movement… and that’s what cleanses your pond or lake. Wind-powered aeration is green and effective. Outdoor Water Solutions is a progressive company, providing products to help people be better stewards of their land and water. I now recommend every pond-owner to consider aeration. No electricity? No problem. Use a wind-powered system.”

Bob Lusk, Editor
Pond Boss Magazine and nationally known fisheries biologist

“On behalf of the Haitian brothers we serve, including my wife and I, we would like to extend our appreciation for your support in the process of executing our work in Haiti. We know that there are still many challenges ahead of our mission, but as long as our Lord continues to bless us by bringing people like you on our path, our success will be imminent!”

Richard Yepez
Haitilapia, LLC

“My little windmill is doing a great job of aerating and now keeping a hole open in the ice of 2 ponds at one time. So far it is exceeding my expectations.”

Fred Minnich
Forest, IN

“The beauty and grandeur that my Outdoor Water Solutions windmill brought to my rural property was way more than I expected! It even makes my pond clean and pretty. Thanks OWS for a great product”

Rodney Miller
(Host, Small Town Big Deal TV Show)
Ocilla, Georgia

“Thanks to our Outdoor Water Solutions windmill, we have been able to maintain clear water for our 1/2-acre pond without the on-going maintenance prior to the purchase. Everyone comments on how nice our pond looks now and what an “eye catching” addition the windmill has made to the landscape of our property. Thank you Outdoor Water Solutions for an outstanding product, first-rate product support and a great looking design.”

Richard and Karen Graham
Apollo, PA
Why Aeration?

**Does your pond look like this?**

Ponds without oxygen can become stagnant, resulting in excess algae, muck on the bottom, and even fish kills.

**Ponds without Aeration:**
- Can become stale or stagnant
- Will tend to develop algae problems over time
- Tend to “turnover” in the spring or fall, which can cause fish kills
- Will have a build-up of excess muck and mud on the bottom
- Can freeze up in the winter months, causing fish kills
- Are not the most fun to fish in or swim in, due to algae or smell
- Not healthy for livestock or wildlife

**Would you like it to look like this?**

The process of aeration supplies the water with rich oxygen and removes excess nutrients and pollutants, making the entire body of water a healthy ecosystem.

**Ponds with Aeration:**
- All ponds benefit from aeration
- Circulates water from the bottom, which helps prevent pond “turnover” and fish kills
- Have less odor, algae, and bacteria due to increased oxygen and circulation
- Will see a reduction in muck and organic matter on the bottom
- Will increase the healthy living area for fish
- Can also hinder mosquito breeding and West Nile virus, due to water movement
- Safe and healthy for animals

**Aeration Options**

There are a lot of ways to add beneficial oxygen to your pond or lake. If you want continuous 24/7 aeration, then electric is the way to go provided you have electricity close to the pond. Most ponds do not have to be aerated continuously and benefit greatly from aeration 8 to 12 hours a day so wind, solar or a combination of the two works great. You can also combine wind or solar with an electric aerator using our control box so you only run the electric aerator when needed.

**Bottom Diffused Aeration:**
- Wind Driven Aeration
- Solar Aeration
- Electric Aeration

**Shallow or Surface Aeration:**
- Surface Aerators
- Fountains

*These three options offer bottom diffused aeration which is preferred for most ponds. These systems work by forcing air up from the bottom of the pond and circulating the whole body of water.*

*These two options work great for ponds that are less than 6’ deep. The surface aerator is also great for ponds that are heavily stocked with fish where you want continuous aeration.*
We worked together with a team of engineers to develop the most advanced technology for wind-driven aeration on the market today. Our new Balanced Camshaft “BalCam II” Technology revolutionizes the industry by significantly increasing the amount of air produced with a single diaphragm by balancing the workload on the three sealed bearings inside each compressor.

**About the OWS Windmill:**

- New “BalCam II” technology minimizes bearing fatigue using Stainless Steel Components
- Patent pending new design
- Fast & easy assembly
- Manufactured with 18-gauge galvanized steel
- Self-governing head to protect in heavy winds
- Secure locking mechanism that attaches windmill head to shaft
- Generates 3.0 – 4.5 CFM of air
- Rated at 30 PSI. This will allow you to aerate effectively up to 30’ – 40’ depth

Outdoor Water Solutions has streamlined wind-driven aeration design & technology!

- Rounded Corners
- Large Compressor
- One-Piece Hub Assembly
- Offset Holes for Easier Alignment

- One system designed to aerate ¼ acre up to 3 acre ponds.
- Multiple systems can be installed for larger ponds or lakes.
- Operates in as little as 3-5 mph winds.
- Can be located up to 1,000 feet from your pond.
- Multiple tower options are available.
- Operates 100% fuel and electricity free!
- Improves your water ecosystem naturally with no additional cost.

**How an OWS Aeration System Works:**

A – OWS Aeration Windmill
B – Polytubing Air Line
C – Diffuser Airstone
D – Optional: Tower Hinges
E – Optional: Weighted Air Line
F – Optional: Airstone Housing Bucket
G – Optional: Airstone Marker

Note: The basic system includes: Windmill, Tower, 100’ Polytubing Air Line, 1 Airstone & Assembly Manual

*See pages 12-13 for optional aeration accessory items.*
Aeration & Ornamental Windmills

We offer a range of windmills for your aeration and ornamental needs. Made in the USA, the OWS aeration windmills are designed for ¼ to 3 acre ponds. If your pond is an unusual size or is shallow, we can help put an aeration system together that will work for you. We offer a range of additional accessories that will enhance your aeration windmill set-up and performance.

Tower Options:
Every Aeration windmill that Outdoor Water Solutions sells has the same windmill head. We use the same blades, hub assembly, compressor, tail arms, and tail fins on all of our windmills. The only difference between the windmills shown here are the towers.

3-Legged Windmills

Our new 24’ windmill is one of the TALLEST windmills on the market. The height is actually 27’ to the top of the head. This higher tower will really catch the wind and works great in lower wind areas.

Also available in 12’, 16’ and 20’ Models

4-Legged Windmills

We also manufacture a 20’ and 24’ four-legged windmill tower. This is more a matter of personal preference, as both tower options are extremely stable if anchored properly, but for those of you who prefer four legs instead of three, this is the way to go! This is a reasonably priced upgrade kit that gives you all four legs and our four-sided cone.

20’ Windmill & Electric Aerator Combo Package

If you’re looking to aerate 24 hours a day and still take advantage of the wind, then this is the package for you. It includes our 20’ Deluxe Windmill with all accessories, an AerMaster 1/4 HP Electric Aerator, and a control box to fully regulate the system.

Item# AWS0127 (480 lbs.)
Telescopic Windmills

Our Telescopic poles are 25’ tall, making the total height of the unit 28’ in the air. Each pole comes in three sections for ease of shipping and includes a hinge system for ease of installation. All are powder-coated or galvanized for many years of enjoyment, making them perfect for more-urban settings, like golf courses, public or municipal parks, subdivisions, etc.

Wooden Windmills

Want a more Nostalgic look and feel? Our new wooden tower is a masterpiece in design. Manufactured in the U.S., with a honey-brown-colored, pressure-treated wood, this windmill will look great for a long time. Total height is 19’ to the top of the head. Available with either a Galvanized or Powder Coated Head. We also offer a Wood Tower Kit where you can build your own tower. We supply the plans, hardware and windmill head.

OWS Deluxe Aeration Windmill

Each functional windmill includes the windmill head, BalCam II Compressor tower, 100’ of ½” polytubing, 1 Airstone and backflow valve.

Each Deluxe Unit Includes:
- Windmill Head, BalCam II Compressor, and Tower
- 100’ of ½” polytubing
- 200’ of ½” Weighted Air Line
- (2) Airstones with backflow valves
- (3) Hose Connectors
- (1) Pair of OWS Tower Hinges
- (1) 2-Way Selector Valve
- (2) Airstone Housing Buckets with Rope
- (2) Duck Decoy Markers

OWS Functional & Ornamental Windmill Heads

Can be attached to an existing windmill tower or to upgrade an existing windmill aeration system. The OWS Functional Aeration Windmill Head comes with our standard aeration accessories, without the tower.

OWS Functional Windmill Head Item # AWS0017 (106 lbs.)

OWS Ornamental Windmill Head Item # OMS0018 (96 lbs.)

Five-Year Aeration Windmill Warranty

Outdoor Water Solutions will cover any major mechanical defects inside our compressor for a full five years from the date of purchase. Windmill parts are covered for a period of three years from date of purchase against defects in workmanship or material. For full warranty information, see our website at www.outdoorwatersolutions.com
Customizing your windmill is a great option! Choose from one of our standard powder coat colors, or design the windmill of your choice. We can also help you design a tail-fin sticker that represents your business, hobby, pet, farm, or family name.

- Magnets Will Adhere to Metal Tail-Fin
- Several Different Height Options
- Top-Quality UV-Protective Powder Coating
- Made in the USA

For more pictures of our powder coated windmills scan the QR code into your smart phone.

**OWS Powder Coat Windmills**

**Standard Powder Coat Colors**

- Green
- Yellow
- Bronze
- Black
- White
- Red
- Blue
- Forest Green

**20’ Custom Powder Coat**

We have created customized windmills for a variety of customers, including colleges, golf courses, farms, and other business where aeration is a benefit, or simply where a windmill adds to the ambiance of the setting. We can powder-coat the entire windmill, or we can work with you and customize the blades, dome, or other sections. We can also create tail-fin stickers using your logo or artwork. For more details, contact your local dealer or call us.

**PCW0091 (276 lbs.)**

20’ Traditional Tower
- Green/Yellow: PCW0130 (276 lbs.)
- Bronze: PCW0021 (276 lbs.)
- Red & White: PCW0006 (276 lbs.)
- Blue & White: PCW0138 (276 lbs.)
- Forest Green: PCW0090 (276 lbs.)

* All powder coated windmill systems on this page include: Tower, Windmill Head, 100’ of ½” polytubing, 50’ of ½” Weighted Air Line, 1 Diffuser Airstone, Foot Valve, Tower Hinges, Airstone Housing Bucket, 1 Duck Decoy Marker, Hose Connector, and a Personalized Tail-Fin.
Outdoor Water Solutions has developed a new line of affordable, high efficiency solar aerators. Available with and without accessories and in multiple configurations, we offer several different options to meet your aeration need, all with “Direct Drive” DD™ technology. Each system comes with high efficiency solar panels that when combined with our high performance DD Solar controller modules aerate for more hours per day than other competitive models on the market. Battery Free operation. We have eliminated the expense of rechargeable batteries and charge controllers by offering a direct drive (DD) aeration system. This reduces your cost along with the maintenance issues associated with extra components.

Solar Panels & Mounting Hardware
- Upgraded high efficiency solar panels.
- Solar modules are designed specifically for use in OFF GRID applications.
- Pre-cut, pre-drilled mounting frames to connect 2 panels in parallel.
- High quality adjustable angle mounting bracket with powder coat finish.
- Includes quick cable disconnects to make assembly much easier.
- Includes a 5’ Galvanized steel mounting pole with instructions.

Tubing & Diffusers
- High quality ½” ID weighted airline guaranteed to sink to the bottom of your pond.
- Low psi rubber Optimal™ Air diffusers with stainless steel hardware and a self-sinking base.

Compressors
- Outdoor Water Solutions DD DC solar compressor rated at 2.8 CFM.
- Aerates ponds up to 15’ deep with its vertical piston design.

Aeration Cabinet
- Powder coated aluminum cabinet with secure locking system.
- Cabinet includes either 1 or 2 high efficiency DC fans.
- Mounting feet and optional pad.
- Solar disconnect provided for safety purposes when working on the unit.
- System includes a pressure gauge and high quality Pressure Relief Valve.

Accessories & Warranty
- Optional noise reduction kit available.
- 2 Year warranty on compressors and electrical components.
- 5 Year warranty on all diffusers, bases and airline.
- 15 Year warranty on solar panels, lifetime warranty against rust on all OWS aluminum cabinets.

**Solar Aerators**

**AerMaster Direct Drive Solar Aerators**

**DD Solar 2**
- Aerates Ponds up to ¾ Acre
- Includes: 2.8 CFM DD Solar Compressor, Powder Coated Aluminum Cabinet, 100’ of Weighted Airline, 1 Double Disc Optimal™ Air Diffuser with Self Sinking Base, 2 High Efficiency Solar Panels, 1 Adjustable Flow Valve with 1 Airline, 1 Cooling Fan, a Pressure Gauge and Pressure Relief Valve, Aluminum Mounting Frame with Angle Adjuster and Mounting Pole.

**DD Solar 3**
- Aerates Ponds up to 1.5 Acres
- Includes: 2.8 CFM DD Solar Compressor, Powder Coated Aluminum Cabinet, 200’ of Weighted Airline, 2 Double Disc Optimal Air Diffusers with Self Sinking Base, 2 High Efficiency Solar Panels, 2 Adjustable Flow Valves with 2 Airlines, 1 Cooling Fan, a Pressure Gauge and Pressure Relief Valve, Aluminum Mounting Frame with Angle Adjuster and Mounting Pole.

**DD Solar 5**
- Aerates Ponds up to 3.0 Acres
- Includes: 5.6 CFM DD Solar Compressor(s), Powder Coated Aluminum Cabinet, 400’ of Weighted Airline, 4 Double Disc Optimal Air Diffusers with Self Sinking Base, 2 High Efficiency Solar Panels, 4 Adjustable Flow Valves with 4 Airlines, 2 Cooling Fans, 2 Pressure Gauges and 2 Pressure Relief Valves, Aluminum Mounting Frame with Angle Adjuster and Mounting Pole.

**DD Solar 7 Combo**
- Aerates Ponds up to 1.5 Acres
- Includes: 2.8 CFM DD Solar Compressor, 3.25 CFM AC Quantum™ Compressor, Powder Coated Aluminum Cabinet, 100’ of Weighted Airline, 1 Double Disc Optimal Air Diffusers with Self Sinking Base, 2 High Efficiency Solar Panels, 1 Adjustable Flow Valve with 1 Airline, 2 Cooling Fans, 1 Pressure Gauge and 2 Pressure Relief Valves, Aluminum Mounting Frame with Angle Adjuster and Mounting Pole.

**DD Solar 8 Combo**
- Aerates Ponds up to 2.0 Acres

**DD Solar 7 & 8 Combo Units**
These systems use solar energy to aerate during the day and 115v electric to aerate at night. This gives you 24/7 aeration while saving you money on electricity. Using our innovative controllers, this system will turn itself on and off electronically whenever there isn’t enough sunlight to power the unit.

**Optional Sound Kit**
- Includes: Cabinet Insulation, Air Filter, Fan Supresser Cover
- Item # SAP0423
Solar Aerators

Battery Backup Solar Aeration Systems

Unique Features:

• These models include two to four batteries and a charge controller so that you can aerate at night or during extended periods of poor weather.
• Up to 3 days of battery life and designed to operate 20 hours a day.
• Each system comes complete with a high efficiency solar panel(s), charge control system, energy efficient compressor, programmable digital timer and a fully adjustable aluminum manifold housed in an attractive 100% recycled plastic cabinet.
• Duraplate diffusers are self-cleaning, self-weighted and fishhook resistant.
• 24 month warranty on defects in material and workmanship.

Specifications

Cabinet & Compressor

• 24V EcoFlow compressors.
• 24V high efficiency solar panels with top-pole mount.
• Programmable digital timer.
• Charge control system included.
• Battery back up for night or extended bad weather operation.
• 37 CFM cooling blower.

Tubing & Diffusers

• Self-weighted tubing to sink to the bottom of your pond.
• Self-cleaning, non-clogging diffusers with a lifetime warranty.

DD Solar Shallow Pond Aerator

Unique Features:

• Battery Free operation. We have eliminated the expense of rechargeable batteries and charge controllers by offering a direct drive (DD) aeration system, perfect for shallow ponds up to 6 feet deep.
• Each system includes 1 high efficiency solar panel, aluminum mounting bracket with variable angle configuration, 1DD compressor producing 2.0 CFM of air, a DD power controller, enclosed lockable cabinet with weather seal, solar power disconnect and cooling fan.
• Shallow Pond 1 includes 25’ of weighted airline and one Optimal™ Air Diffuser.
• Shallow Pond 2 includes 50’ of weighted airline, 2 Optimal Air Diffusers and a 2 way selector valve
• 5 year warranty on panel/2 year on all other components.

Item # SOL0349 Shallow Pond 1 (53 lbs.)
Item # SOL0365 Shallow Pond 2 (65 lbs.)
Fish Feeders

**OWS Directional Feeder**

If you’re looking for a high quality fish feeder that will hold up to the elements for years, then this is it. Our two fish feeders are designed to:

**Key Features:**
- Throw any size of fish food at a 45 degree angle out into your pond or lake.
- Programmable digital timer - feed up to 6 times a day.
- Constructed of high quality hot dipped galvanized steel with heavy gauge steel legs.
- Holds 75 lbs. of fish food or 150 lbs. of corn
- Includes 12 volt battery and solar panel charger
- Includes sight glass on the side so you can see how much feed is in the feed bin.
- Includes a high quality varmint guard to keep raccoons and other animals out.
- Includes feeder feet for secure mounting and adjustable legs on the shore mounted feeder.
- **NOTE: This is a “Made in the USA” item.**

**OWS Dock Mount Fish Feeder**

![Image of OWS Dock Mount Fish Feeder](Image)

Item # FDR0482

**OWS Shore Mount Fish Feeder**

![Image of OWS Shore Mount Fish Feeder](Image)

Item # FDR0483

**Bug Light Fish Feeder**

Want to feed your fish for only pennies a day? Our new bug light fish feeder can do just that. A fluorescent light attracts all types of bugs, then a high speed fan disables them and knocks them into the water to feed your fish.

You can place the feeder on your dock or on a post that overhangs the water. This product can also provide hours of entertainment as you watch your bass, bream, crappie and other fish come in to feed. What a great way to feed your fish and to kill a few bugs in the process! *Why fry your bugs with a bug zapper when you can feed them live, intact ones that don’t taste burnt!*

**OWS Treefeeder Fish Feeder**

If you’re looking for a fish feeder that doesn’t look like a fish feeder, then this is exactly what you need! This is a ultra-realistic polyurethane feeder that looks just like a tree stump sitting along the edge of your pond or lake. Each unit is solar powered and lockable and secures to the ground via our integrated stake system. Handcrafted in the U.S.A. This is a one of a kind fish feeder!

**Key Features:**
- Holds up to 100 lbs. of fish food.
- Can also use corn or milo as a game feeder
- Directional throw pattern, perfect for a pond or lake
- Integrated solar battery charger
- Realistic bark texture and color
- Shoots out over 20 yards
- Programmable timer - up to 6 feedings per day 1-30 seconds each
- 1 year warranty on the feeder motor and solar panel
- Lifetime warranty on the feeder box and spinner

Item # FDR0292 (45 lbs.)
Electric Aerators

Electric Aeration Systems
To prevent stratification and low dissolved oxygen in ponds and lakes, we aerate the bottom water. Aeration is done by using compressed air to continuously move large volumes of low-oxygen water from the bottom to the surface. When the entire lake is oxygenated, fish are able to feed in the deeper portions of the lake. This method of aeration reduces algae growth by reducing the release of nutrients from lake sediments and allowing beneficial aerobic bacteria to grow in the lower parts of your pond, lake or dugout. Benefits include improved water quality and clarity, prevention of fish kills and reduced occurrence of algae blooms, disease and odor.

Outdoor Water Solutions AerMaster™ Aeration Systems are a great way to aerate and circulate your ponds, lakes and dugouts. Each system is designed to be maintenance free and are built with high quality components and carry a 2 Year Warranty. We offer both shallow water and deep water compressors and can design a system for almost any pond from 1/8 of an acre up to 6+ acres.

Shallow Pond Systems (Ponds 8-10’ deep or less)

**OWS AerMaster LD 1.5 Aeration System**
Aerates ponds up to 8’ in depth and ½ acre in size. Unit produces 1.5 CFM at 8’ of depth. Great for when you need an energy efficient way to aerate your pond 24 hours a day. UL approved for outdoor use. .5 amp draw makes this aerator very affordable. 2 year warranty.

Includes:
- Electric Aerator rated at 1.5 CFM @ 8’ of depth
- 50’ of Non-Weighted Airline
- 25’ of Weighted Airline
- 1 Airstone Diffuser with Backflow Valve
- Great for Small Ponds, Koi Ponds, Septic Tanks and Rural Lagoons

Item # EAU0047 (18.5 lbs.)

**OWS AerMaster LD 4.0 Aeration System**
Aerates ponds up to 10’ deep and 1 acre in size. Unit produces 4.0 CFM at 8’ of depth. This aerator comes with 2 diffusers and 200’ of weighted airline making it a great product for the price. UL approved for outdoor use. Unit only draws 1.0 amp of electricity and includes a 2 year warranty.

Includes:
- Electric Aerator rated at 4.0 CFM @ 8’ of depth
- 100’ of ½” Non-Weighted Airline
- 200’ of ¾” Weighted Airline
- 2 Airstone Diffusers with Backflow Valve
- 2 Way Selector Valve
- 2 Airstone Housing Buckets
- 2 Duck Decoy Markers

Item # EAU0183 (129.0 lbs.)

**OWS AerMaster LD 7.0 Aeration System**
Aerates ponds up to 10’ deep and 1.5 acres in size. Unit produces 7.0 CFM at 8’ of depth. This aerator comes with 3 Optimal™ Air rubber membrane diffusers in an attractive base that sits on the bottom of your pond or lake. UL approved for outdoor use. Unit only draws 2.2 amps of electricity and includes a 2 year warranty.

Includes:
- Electric Aerator rated at 7.0 CFM @ 8’ of depth
- 3 Way Selector Valve
- 3 Low psi Optimal Air Rubber Membrane Diffusers with 3 Bases
- Airline Sold Separately

Item # EAU0184 (47.0 lbs.)

**OWS Powder Coated Aluminum Aeration Cabinet**
Each of the three AerMaster LD Aerators are UL approved for outdoor use but will last longer if put inside of an all weather enclosure. Our Aluminum cabinets are powder coated for a long, rust-free life. Each cabinet comes with a circulation fan to keep the aerator cool and a 115V plug in for added safety. We also use a high quality lock so that you can secure your aerator from both theft and vandalism.

Includes:
- Powder Coated Aluminum Cabinet
- 220 CFM Circulating Fans
- 115V Outlet
- Lock with Key
- Great for Protecting any of the Shallow Pond Aerators from rain, snow and the elements

Item # EAU199 (35 lbs.)
**Electric Aerators**

**Deep Pond Systems (Ponds Over 8’ Deep)**

**OWS AerMaster Pro 1**
- Aerates Ponds up to 1 Acre
- Includes:
  - ¼ HP Quantum™ Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 115V Outlet
  - 3.5 CFM and 50 psi
  - 100’ of ½” Polytubing
  - 1 Airstone Diffuser
  - Pressure Relief Valve
- Item # EAU0185 (60 lbs.)

**OWS AerMaster Pro 2**
- Aerates Ponds up to 1.5 Acres
- Includes:
  - ¼ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 115V Outlet
  - 3.5 CFM and 50 psi
  - 100’ of ½” Weighted Airline
  - 1 Dual Disc low psi Air Station
  - Pressure Relieve Valve
  - Oil Filled Pressure Gauge
- Item # EAU0186 (105 lbs.)

**OWS AerMaster Pro 3**
- Aerates Ponds up to 1.5 Acres
- Includes:
  - ¼ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 3.5 CFM and 50 psi
  - 3 Valve Manifold With 2 Adjustable Valves
  - 200’ of 3/8” Weighted Airline
  - 2 Single Disc low psi Air Stations
  - Pressure Relief Valve
  - Oil Filled Pressure Gauge
- Item # EAU0187 (165 lbs.)

**OWS AerMaster Pro 5**
- Aerates Ponds up to 2 Acres
- Includes:
  - ½ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 5.0 CFM and 50 psi
  - 3 Port Manifold With 2 Adjustable Valves
  - 200’ of 3/8” Weighted Airline
  - 2 Single Disc low psi Air Stations
  - Pressure Relief Valve
  - Oil Filled Pressure Gauge
- Item # EAU0189 (115 lbs.)

**OWS AerMaster Pro 6**
- Aerates Ponds up to 2.5 Acres
- Includes:
  - ½ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 115V Outlet
  - 3.5 CFM and 50 psi
  - 100’ of ½” Polytubing
  - 1 Airstone Diffuser
  - Pressure Relief Valve
- Item # EAU0190 (170 lbs.)

**OWS AerMaster Pro 7**
- Aerates Ponds up to 2.5 Acres
- Includes:
  - ½ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 5.0 CFM and 50 psi
  - 3 Valve Manifold With 3 Adjustable Valves
  - 300’ of 3/8” Weighted Airline
  - 3 Single Disc low psi Air Stations
  - Pressure Relief Valve
  - Oil Filled Pressure Gauge
- Item # EAU0192 (175 lbs.)

**OWS AerMaster Pro 8**
- Aerates Ponds up to 2.5 Acres
- Includes:
  - ¾ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 7.2 CFM and 50 psi
  - 3 Port Manifold with 2 Adjustable Valves
  - 300’ of 3/8” Weighted Airline
  - 2 Double Disc low psi Air Stations
  - Pressure Relief Valve
  - Oil Filled Pressure Gauge
- Item # EAU0193 (90 lbs.)

**OWS AerMaster Pro 9**
- Aerates Ponds up to 3-4 Acres
- Includes:
  - ¾ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 7.2 CFM and 50 psi
  - 3 Port Manifold With 3 Adjustable Valves
  - 3 Double Disc low psi Air Stations
  - Pressure Relief Valve
  - Oil Filled Pressure Gauge
  - Airline Sold Separately
- Item # EAU0193 (90 lbs.)

**OWS AerMaster Pro 10**
- Aerates Ponds up to 5 Acres
- Includes:
  - ¾ HP Quantum Compressor
  - Powder Coated Aluminum Cabinet
  - 220 CFM Circulating Fans
  - 7.2 CFM and 50 psi
  - 3 Port Manifold With 3 Adjustable Valves
  - 3 Four Membrane Self Sinking Optimal™ Air Diffusers
  - Pressure Relief Valve
  - Oil Filled Pressure Gauge
  - 500’ Spool ½” Weighted Airline
- Item # EAU0485 (415 lbs.)

---

**Available in Both 110v and 220v Models**

3 Year Warranty on Deep Pond Compressors!
Accessories are designed to support the OWS windmills. We designed the OWS windmill kits with the basic aeration needs. We recommend the addition of tower hinges and weighted air line to enhance the installation and windmill operation, allowing you to determine your individual accessory needs. We offer a complete range of replacement parts for the OWS windmills and a wide range of universal parts to fit other companies’ aeration windmills.

**Aeration Accessories**

*OWS Aeration Accessory Kits*

**OWS Small Pond Accessory Kit**
Includes everything you need to aerate a 1/8-acre to 1-acre pond. Includes pivot hinges, which help raise and lower your tower for maintenance, 50’ of weighted air line, so your air line sinks to the bottom of your pond, 1 airstone housing bucket, 1 duck decoy marker, and hose connectors.

Item # PSP0071 (29 lbs.)

**OWS Medium Pond Accessory Kit**
Includes everything you need to aerate a 1- to 2-acre pond. Includes pivot hinges, which help raise and lower your tower for maintenance, 150’ of weighted air line, so your air line sinks to the bottom of your pond, 1 extra airstone and foot valve, a 2-way selector valve to regulate oxygen flow, 2 airstone housing buckets, 2 duck decoys, and hose connectors.

Item # PSP0072 (84 lbs.)

**Aeration Tubing**

*OWS Polytubing*
Outdoor Water Solutions has looked at a lot of air line to find what we think is the best. Our non-weighted polytubing is a heavy-duty LLDPE tubing that is designed to resist kinking. We recommend using this air line from the top of the windmill down to the edge of your pond. For some installations, this might be 50’, for others it can be up to 1,000 feet.

**OWS Weighted Air Line**
Our weighted air line is manufactured with the right weighting so it sinks to the bottom of your pond, even when it’s full of air. By keeping the air line on the bottom of your pond, you don’t have to worry about it getting tangled up with fishing line, boat motors, or people swimming.

**Aeration Diffusers**

*OWS Diffused Aeration & Ice Melt Tubing*
Aerating shallow ponds can be a real challenge! Our diffused aeration tubing works great to aerate ponds that are 3-8’ deep and works with all of our aerators. This is self weighted tubing that has slits every 1.5” to give you more air spread out over a larger area. New Ice Melt tubing available with slits every 24” to keep the ice away from docks, boats, etc. in the winter time.

Item # ARL0119 100’ roll of ½” Aeration Tubing (23 lbs)
Item # ARL0310 50’ roll of ½” Ice Melt Tubing (12 lbs)
Item # ARL0311 100’ roll of ½” Ice Melt Tubing (23 lbs)

*OWS Diffuser Airstone*
Our diffuser airstone is the secret ingredient for efficient aeration! Our stones are manufactured with a large base to ensure the stone is sealed to the base correctly, forcing air out of the micro-pores in the stone. This stone has proven itself for more than 20 years. The top fitting is ½” NPT threads. This needs a backflow valve (ARS0027) or you can use the 2 piece kit (ARS0102).

Item # ARS0026 (3.5 lbs)

*OWS Diffuser with Backflow Valve*
This is the single airstone diffuser (ARS0026) and includes our back flow valve to prevent water from backing up into your airline. There are two parts to this.

Item # ARS0102 (3.5 lbs)

*OWS Foot Valve*
The Airstone Foot Valve makes sure you don’t have water back up into your line. This item goes with Item # ARS0026.

Item # ARS0027 (.1 lbs.)

*OWS 9” Rubber Membrane Diffuser*
This is a low-psi design, which means your windmill or electric aerator doesn’t have to struggle to open up the perforated slits like it would with some rubber membranes on the market. Comes with a backflow valve. Rated for up to 5 CFM and perfect for ponds, especially where you’re only running one diffuser.

Item # ARS0120 (3 lbs.)

*OWS 9” Optimal™ Air Diffuser with Sinking Base*
Same diffuser as our ARS0120, however this one comes with a base that sinks on it’s own.

Item # ARS0390 (5 lbs.)

*OWS Dual Disc 9” Optimal Air Diffuser with Sinking Base*
This unit gives you two 9” diffusers and a self sinking base.

Item # ARS0391 (11 lbs.)

*OWS Four Disc 9” Optimal Air Diffuser with Sinking Base*
This unit gives you four 9” diffusers and a self sinking base.

Item #ARS0450 (12 lbs.)
### Aeration Accessories

- **OWS Tower Hinges**
  - If you choose only one accessory for your windmill, this would be it. These easy-to-install hinges allow you to lay the windmill down or stand it up using a much more stable base. By fixing two of the windmill corners, your windmill can now pivot up and down, making service and repairs much easier and safer.
  - Item # WNP0041 (2 lbs.)

- **OWS Hose Connectors**
  - This kit connects multiple pieces of our ½" polytubing together. They can also be used with ½" weighted air line if you have hose clamps.
  - Item # ARL0034 (.05 lbs.)

- **OWS Hose Connector Kits**
  - Convenient and easy-to-use, these hose connector kits help connect your ½" air line. This kit is designed to connect your weighted air line to polytubing or to connect multiple pieces of weighted air line together. Includes: 1 hose connector and 2 clamps.
  - Item # ARL0035 (.05 lbs.)

- **OWS Windmill Head Pivot Bearing**
  - Are you in a lower wind area or do you have trees and buildings closer to your windmill than you would like? Our windmill head pivot bearing is a quick install and allows your windmill head to turn into the wind at lower wind speeds. Works on any brand of aeration windmill with a 1 7/8" or 2" pivot tube.
  - Item # WNP0147 (2 lbs.)

- **OWS Aeration Maintenance Kit**
  - High-quality maintenance kit, which includes 1 OWS diaphragm, 2 umbrella valves, 1 washer, and 1 "O" ring. Your diaphragm and check valves should be replaced every 3 – 5 years, depending on conditions. Deeper stone placement and/or dusty conditions may cause earlier replacement.
  - Item # OPR0046 (4 lbs.)

- **OWS Wooden Windmill Anchor Kit**
  - Use this to anchor your wooden windmill. Kit includes 4 ground anchors and all hardware needed to attach each anchor to the four legs. Will not work in gravel or rock.
  - Item # WNP0154 (15 lbs.)

- **OWS Gator Airstone Marker**
  - Want a convenient way to mark your airstone or diffuser location so that you can always find it? Also helps scare away predators like Blue Heron’s.
  - Ultra-realistic in design.
  - Item # ARS0195 Floating Gator (4.0 lbs)
  - Item # ARS0344 Floating Gator JR (3.0 lbs)
  - Item # ARS0345 Gator Kickboard (4.0 lbs)

- **OWS Equipment Pad**
  - This convenient equipment pad sits underneath your electric aerator or solar aerator cabinet to keep it out of the mud and muck. Easier than pouring concrete!
  - Item # ARS0360 Medium Base 24” x 24” x 2” (8.0 lbs)
  - Item # ARS0361 Large Base 30” x 30” x 2” (12.0 lbs)

- **OWS Aerator Control Box**
  - Would you like to take advantage of alternative energy aeration and still have aeration 24 hours a day? Our new Aerator Control Box uses an air-pressure sensor to regulate your aeration needs. If the wind stops blowing, this control box will turn on your electric aeration system. If the wind blows, it shuts off your electric aerator, allowing you to save money.
  - Item # ARL0103 (6.5 lbs.)

- **OWS Airstone Housing Bucket**
  - Sturdy bucket protects Airstone and keeps it out of the mud and muck. Includes 48’ nylon rope that ties the bucket to your airstone marker.
  - Item # ARS0028 (2.8 lbs.)

- **OWS Airstone Marker – Duck Decoy**
  - Great-looking duck decoy that helps you visually mark your airstone and its placement. Marker attaches to Airstone Housing bucket. Nice addition to any pond.
  - Item # ARS0029 (5 lbs.)

- **OWS Selector Valves**
  - Our selector valves are designed to regulate airflow between multiple diffuser airstones and water pumps. Air tends to go to the point of least resistance, so if one airstone is shallower than others or has a shorter air line, it will get a majority of the air. Selector valves allow you to regulate the airflow. We use high-quality brass ball valves designed to stand up to years of use.
    - 2-Way Selector (½”) – Regulates 2 attachments
      - Item # ARL0042 (1.05 lbs.)
    - 3-Way Selector (½”) – Regulates 3 attachments
      - Item # ARL0043 (1.45 lbs.)

- **OWS Freeze Control System**
  - When added to any OWS Wind-Driven Aeration System, the freeze control system will keep the line from freezing and allow airflow to continue. This will also hinder ponds from freezing and reduce the need to break ice in winter months.
  - Item # FCU0039 (4.75 lbs.)

- **Compressor Air Filters**
  - Replace every 6 months to keep warranty intact. Kits include 3 replacement filters and 1 canister
  - Item # EAU0396 – Small Filter Replacement Kit (¼ HP)
  - Item # EAU0415 – Large Filter Replacement Kit (½ & ¾ HP)

- **Quantum™ Compressor Maintenance Kits**
  - Replace every 2-3 years or as needed.
  - Item # EAU0295 – ¼ HP Repair Kit
  - Item # EAU0296 – ½ HP Repair Kit
  - Item # EAU0297 – ¾ HP Repair Kit
**OWS Fountains**

**OWS Eco™ Line of Lake & Pond Fountains**

Outdoor Water Solutions is introducing our Eco™ line of lake and pond fountains. Why Eco:

- Economical to purchase and maintain
- Economical to operate with their low amp draw
- Eco-friendly design due to their low profile and energy efficient operation
- Affordable replacement parts

---

**1/2 HP Eco Fountain**

**Includes:**
- 32” High Quality Black Molded Float with UV Protection
- 1/2 HP Maxis™ Pump with 100’ Power Cord
- Includes 4 Different Nozzle Patterns
- High Quality Filter Basket to Protect Pump & Motor
- Includes Timer to Turn the System On and Off
- 50’ Mooring Rope
- Optional 110V LED Light Kit with (3) 12 Watt LED Light Fixtures, 100’ Power Cord and Photocell Timer

**Product Benefits**
- Quick and easy installation
- Only uses 5 amps of 110v electricity for the 1/2hp and 10 amps for the 1 hp
- Higher flow rates than many competitors
- Works in fresh, salt or brackish water
- Works in both lined and natural dirt ponds

---

**1 HP Eco Fountain**

**Includes:**
- 32” High Quality Black Molded Float with UV Protection
- 1 HP Maxis™ Pump with 100’ Power Cord
- Includes 4 Different Nozzle Patterns
- High Quality Filter Cage to Protect Pump & Motor
- Includes Timer to Turn the System On and Off
- 50’ Mooring Rope
- Optional 110V LED Light Kit with (3) 12 Watt LED Light Fixtures, 100’ Power Cord and Photocell Timer

**Product Benefits**
- Only needs a minimum of 36” of water to operate
- 2 year warranty on fountain pumps, timers and lights/5 year warranty on fountain floats
- Each fountain includes 4 fully interchangeable nozzles
- Significantly lower replacement parts cost than most competitive fountains
**½ HP Eco Fountain**  
*Item # FTN0421*  
½ hp Fountain (Includes ½ hp Maxis™ pump with 100’ power cord, 4 spray patterns, 50’ mooring rope and a high quality filter basket).

**LED Lights**  
*Item # FTN0420*  
Set of (3) 12 watt stainless steel LED lights with 100’ power cord (110v) and photocell timer.

**½ HP Eco Fountain with Lights**  
*Item # FTN0422*  
½ hp Fountain (Includes ½ hp Maxis™ pump with 100’ power cord, 4 spray patterns, 50’ mooring rope, high quality filter basket plus (3) 110v 12 watt stainless steel LED light fixtures with 100’ power cord and photocell timer).

**1 HP Eco Fountain**  
*Item # FTN0440*  
1 hp Fountain (Includes 1 hp Maxis™ pump, 100’ power cord, 4 spray patterns, 50’ mooring rope, high quality oversized steel mesh debris cage to keep out algae, sticks and other debris).

**Debris Cage**  
*Item # FTN0451*  
Oversized debris cage to fit the ½ hp and 1 hp Eco line of fountains.  
**NOTE:** Longer power cord are available for both the fountains and lights. 230v pumps are also available. Call for pricing.

**1 HP Eco Fountain with Lights**  
*Item # FTN0442*  
1 hp Fountain (Includes 1 hp Maxis™ pump, 100’ power cord, 4 spray patterns, 50’ mooring rope, high quality oversized steel mesh debris cage cage to keep out algae, sticks and other debris plus (3) 110v 12 watt stainless steel LED light fixtures with 100’ power cord and photocell timer).

**OWS Classic™ Line of Floating Fountains**

**Optional Light Kits for Classic Fountains**  
Want to add extra ambiance to your water? Our stainless steel 36 watt LED light kits offer an exceptional amount of light with the low cost and long life of LED’s. Why purchase outdated Halogen lights that have to be replaced frequently and consume lots of power when you can use newer, energy efficient LED’s. We offer sets of 2, 4 and 6 stainless steel 36 watt LED light kits that can go on our Classic Fountains or can be used as replacement lights for other manufacturer’s fountains. These come with a universal mounting bracket to fit fountain floats. Time to upgrade your old Halogen lights with our long-life LED’s! This light comes standard as clear, but you can add a blue, red or green lens cover to add extra ambiance. Perfect for the holiday season!  
*Item # LIG0471* Set of (2) 36 watt SS LED lights – 100’ cord  
*Item # LIG0472* Set of (4) 36 watt SS LED lights – 100’ cord  
*Item # LIG0473* Set of (6) 36 watt SS LED lights – 100’ cord  
**NOTE:** 150’, 200’ and longer power cords are available.
Outdoor Water Solutions is now manufacturing the Classic™ Series Fountains. These fountains are designed as a high quality but reasonably priced floating fountain perfect for ponds and lakes from ½ acre up to 30 or 40 acres in size. Sizes range from ¾ hp up to 7.5 hp. Optional light kits include 36 watt LED lights with stainless steel housings for long life and low cost of operation.

**Key Features:**
- High Quality 304 Stainless Steel Pumps for Long Life – designed for Industrial use
- Outstanding 3 Year Warranty on all Pumps, Motors, Floats, Lights and Electrical Components
- Sealed pump design for low maintenance. No oils to change every year or two like other manufacturers.
- Water cooled motors with high quality seals.
- Lower power draw per hp than other motors.

All Natural Pond Products

Outdoor Water Solutions believes that most problem ponds can be fixed or “cured” over time. If your pond is 10-15+ years old or older, it may take some time because there may be a foot or even two feet of black organic matter on the bottom. All of that organic matter is releasing nutrients (phosphorous & nitrogen) because the pond is anaerobic (no oxygen). These nutrients feed your weeds and algae making them worse each year.

Adding aeration, beneficial bacteria and even pond dye can begin reversing the aging process and reduce the layer of black organic matter. On older ponds, it may take some time. The alternative is to kill the algae that’s there with an algaecide, which then lets it sink back to the bottom giving you another inch or two of organic matter that causes more and more algae... We believe in using “preventative” products if possible but also carry a full line of “curative” algaecides that can be used selectively for problem areas. We also sell herbicides to control tough weeds and aquatic vegetation if needed. Please consult your local state regulations for guidelines on all algaecides and herbicides.

**OWS Pond Pack**
A complete kit of all-natural products that will jump-start your pond and help keep it clean for the whole season. Each kit is designed to treat ¼ acre of water and includes 10 lbs. of a water clarifier; 12 lbs. of bacteria in a barley-straw medium, packaged in water-soluble pouches, and 2 lake & pond dye packs – all of which are safe to fish! Multiple kits should be used for larger-size ponds. Products help break down organic matter, diminish nutrient overload, and help reduce odor to create a clean, clear pond.

Item # PSP0001 (23 lbs.)

**OWS Lake & Pond Bacteria**
Each pack includes 12 lbs. of bacteria in a barley-straw medium, packaged in water-soluble pouches. Our bacteria help break down organic matter, diminish nutrient overload, and help reduce odor to help create a clean, clear pond.

Item # PSP0074 (12 lbs.)
Item # PSP0132 (25 lbs.)

**OWS Lake & Pond Muck Pellets**
This is a new, highly concentrated product designed to clean up areas of much around a pond, swimming area, or dock. Contains sludge-eating bacteria, which allows you to focus on problem areas with a self-sinking, highly concentrated bacteria blend, designed to break down the muck and sludge in a specific area.

Item # PSP0150 10 lbs. Pail
Item # PSP0151 25 lbs. Pail (value-priced)

**All-Natural Liquid Pond Dye**
If you’re looking for a highly concentrated liquid dye for your ponds, we’ve got it! This product is equivalent to other companies’ ONE Gallon containers and is 4X Concentrated! Formulated to help maintain your pond or lake by filtering sunlight and adding an aesthetically pleasing blue color. A “must-have” to naturally keep your pond clean. Safe for recreational ponds, horses, cattle, birds, fish, wildlife and the environment.

Item # PSP0125 Pond Dye Blue 1 qt. 3 lbs.
Item # PSP0293 Pond Dye Blue 1.0 gals 10 lbs.
Item # PSP0126 Pond Dye Black 1 qt. 3 lbs.
Item # PSP0176 Pond Dye Deep Blue 1 qt. 3 lbs.

**OWS Lake & Pond Clarifier**
This clarifier is designed to do two things. It will tie up excess phosphorous in the water column which is a necessary nutrient for algae production and it helps tie up suspended soil particles giving you a clearer pond. This product is an alum or aluminum sulfate based product that is commonly used by water treatment plants to tie up excess nutrients and as a flocculent to remove suspended dirt particles and to reduce turbidity.

Item # PSP0134 (10 lbs.)

*Some products like Reward, Weedtrine and Clipper will require re-treatment for long-term control on some weeds.*

- Consult the product label for specifics on application rates and timing for each product below.

**E** = Excellent    **G** = Good    **F** = Fair
Weed Control

**ShoreKlear-Plus**
This product is for use on emerged aquatic weeds and brush in aquatic and other noncrop sites. Shore-Klear Plus is effective on many species including: Alligator Weed, Cattails, Reed Canarygrass, Purple loosestrife, American Lotus, Phragmites, Spatterdock, Torpedograss, Waterhyacinth, Waterlettuce, Water Primrose, and Willows. Application rates normally range from 3.5-4.5 oz per gallon of water. 1 Gallon treats from 1 to 5 ½ acres of vegetation.

Item # PSP0202   1 Gallon    11 lbs.

**Reward**
A concentrated liquid aquatic herbicide effective against a wide variety of submersed, emergent, and floating aquatic plants including duckweed, naiads, and cattails. Reward poses virtually no environmental risk in aquatic applications because the herbicide concentration rapidly decreases as it is absorbed onto soil, vegetation, and organic matter. Restrictions on water usage following application: livestock consumption - 1 day, irrigation of food crops - 5 days, irrigation of turf and non-food crops- 1-3 days, human drinking - 1-3 days. The product of choice when fishing restrictions are not tolerable. Application rates: 1 to 2 gallons per surface acre.

Item # PSP0205   1 Gallon    11 lbs.

**Sonar**
An aquatic herbicide effective against a variety of aquatic plants; submersed, emergent, and floating (including duckweed and watermeal). Provides excellent season-long control with an early spring application prior to or just after plant growth begins. No restrictions on water use for fishing, swimming, or domestic use following application according to label instructions. Fourteen to thirty day restriction on use of treated water for irrigation following application. Application rates: Liquid: ponds - 0.16 to 1.5 quarts per acre.

Item # PSP0206    16 oz. Bottle    3 lbs.
Item # PSP0214    32 oz. Bottle    6 lbs.

**Clipper**
Our #1 Choice for Watermeal Control. Clipper aquatic herbicide eliminates invasive floating weeds and submerged weeds such as duckweed and watermeal. Clipper herbicide treats a wide variety of algae and submerged weeds including hydrilla, Eurasian watermilfoil, curlyleaf pondweed and cabomba as well as floating plants such as duckweed, giant salvinia, water lettuce and watermeal. See results in 7-14 days with no swimming or fishing restrictions. Use Rate: 12-16 ounces per acre for surface applications. An aquatic surfactant like Cide-Kick is recommended on algae and floating weeds.

Item # PSP0363    1 lb.
Item # PSP0254    5 lb. Pail

**Navigate**
A granular formulation of 2,4-D which is effective on watermilfoil, water stargrass, coontail, spatterdock, water lilies, and watershield. It is very effective in control of Eurasian watermilfoil, an aggressive, exotic species found throughout the U.S. This product is not for use in waters used for irrigation, agricultural sprays, watering dairy animals, or domestic water supplies. Application rates vary from 100 pounds per acre for milfoil to a maximum of 200 pounds per acre for resistant plants such as spatterdock and watershield. Navigate pellets are effective any time susceptible weeds are actively growing.

Item # PSP0255    12 lb. Pail
Item # PSP0256    50 lb. Bag

**Weedtrine-D**
A non-volatile herbicide for use in controlling submersed and floating aquatic weeds. It is also recommended for top kill of shoreline emergent weeds and as a grass and broadleaf weed growth killer in non-crop or non-planted areas. Absorption and herbicidal action of Weedtrine D is usually quite rapid with effects visible in a few days. Application rates are 5-10 gallons per surface acre. Water should not be used for irrigation or domestic use for 5 days following treatment.

Item # PSP0204   1 Gallon    11 lbs.
**Algae and Weed Control**

**Green Clean**
GreenClean is a granular peroxide based product. The mode of action is oxidation, which provides immediate control of algae, and it releases oxygen as it works. GreenClean is one of the only non-copper based algaecides currently on the market. GreenClean can be applied by broadcasting, as a dissolved liquid, or as a subsurface application. Application rates range from 3-170 pounds per acre-foot depending on the amount of algae growth.

- Item # PSP0216 8 lb. Pail
- Item # PSP0209 50 lb. Pail

**Cide-Kick Aquatic Surfactant**
A non-ionic, water soluble, low viscosity, biodegradable wetting agent and activator. Helps break down waxy leaf cuticle for more effective herbicide uptake. Use with Rodeo, Reward, 2,4-D, and other herbicides for spraying emergent vegetation. Mix with algaecides for better control of tough algae species.

- Item # PSP0210 1 Quart 3 lbs.

**Cutrine Plus Algaecide**
A 9% chelated copper algaecide for use in lakes, potable water reservoirs, farm ponds, fish and industrial ponds, fish hatcheries and raceways, crop and non-crop irrigation conveyance systems, ditches, canals, and laterals. Cutrine Plus under field conditions, is effective in controlling a broad range of algae including Chara, Spirogyra, Cladophora, Vaucheria, Ulothrix, Microcystis, and Oscillatoria. Effective in hard water. Treated water may be used for swimming, fishing, drinking, livestock watering, or irrigation immediately after treatment. Application rates range from 0.6 to 1.2 gallons per acre foot of water treated.

- Item # PSP0207 1 Gallon 12 lbs.

**Cutrine Granular**
A 3.7% granular chelated copper algaecide ideally suited for treatment of bottom growing algae including Chara and Nitella and spot treatments along docks, beaches, boat launches, and fishing areas. This formulation helps control growth before it reaches the surface. Cutrine Plus Granular is registered for use in lakes, potable water reservoirs, farm and fish ponds, fish hatcheries, and golf course water hazards. Treated water may be used for swimming, fishing, drinking, livestock watering, or irrigation immediately after treatment. Spread as evenly as possible over treatment area at a rate of 1 pound per 750 square feet or 60 pounds per surface acre.

- Item # PSP0215 12 lbs.

**OWS Heavy Duty Lake & Beach Rake**
The Outdoor Water Solutions Lake & Beach Rake is a great tool for removing algae, muck, leaves, sticks and other items from your pond or lake. This 36” wide aluminum rake comes with a 11’ two piece rust proof, powder coated handle, detachable float and a 50’ length of polypropylene rope. Great for skimming floating aquatic vegetation and algae from the water. You can also shorten the handle and remove the float, giving you a high quality landscaping rake, excellent for dressing beach sand and shore edges. Optional 66” extension kit available.

- Item # PSP0212 7 lbs.
- Item # PSP0213 66” Extension Kit 4 lbs.

**OWS Heavy Duty Aquatic Weed Cutter**
The Outdoor Water Solutions Heavy Duty Weed Cutter is great for mechanical removal of weeds both in and around your pond. This 28” double-sided serrated weed cutter comes with a 2 piece rust proof, powder coated 11’ long aluminum handle and has an aluminum frame. Use it to cut floating aquatic weeds and vegetation along the edges of your pond. Also works great on cattails and phragmites. This is the best weed cutter on the market! Optional 66” extension kit available.

- Item # PSP0211 8 lbs.
- Item # PSP0213 66” Extension Kit 4 lbs.
**Horizontal Pump**
This pump is perfect for pumping water out of a pond, stream, or lake. Many people use it for filling stock tanks, irrigation, keeping a pond full, etc. It requires that it be submerged in at least 24” of water and weighted down with at least 75 pounds of weight for effective operation. Works in conjunction with the Outdoor Water Solutions Wind-Driven or Electric Aeration System. Designed to pump up to 3.0 gallons per minute, with a maximum 40-foot lift.

**Item # PMP0271 (21 lbs.)**

---

**Fish Attractors**

If your goal is to attract and catch big fish — like big crappie, big bass, and even big catfish, then this is what you’re looking for! We have partnered with Mossback Fish Habitat to bring you some of the best

**Features include:**
- Can hang from a dock or pier vertically.
- Can also place it on the bottom of a lake or pond horizontally.
- Manufactured in the U.S. and made from recycled plastic, for a true “green” feel.
- Promotes algae and phytoplankton growth.
- Great in all depths – from 6 ft. up to 20 ft. or 30 ft.
- Great when you combine 3 or 4 of these together and create a long-lasting brush pile of protective habitat!
- Easy to assemble – comes with mounting cables so you can attach to your dock, pier, or concrete blocks.

- Item # FAT0480
Green Galaxy™ Dock & Fishing Lights

This is the ultimate underwater fishing light with a patent pending waterproof design. Great for attracting fish to your dock or fishing area, which then attracts bigger fish looking for food! These Green Galaxy lights also look great at night and put off a nice green glow.

Features Include:
- Energy efficient 175 watt mercury vapor bulb
- Includes a GFCI plug and photocell timer
- Single light kits come with 50’, 75’ and 100’ power cords
- Double light kits come with 50’/50’, 50’/75’, 75’/75’ and 100’/100’ power cords with one shared controller
- 1 year warranty and reasonably priced replacement parts

Models Available:

Single Light
- Item # LIG0427 50’ Power Cord
- Item # LIG0428 75’ Power Cord
- Item # LIG0429 100’ Power Cord

Double Light
- Item # LIG0430 50’/50’ Power Cord
- Item # LIG0431 50’/75’ Power Cord
- Item # LIG0433 75’/75’ Power Cord
- Item # LIG0435 100’/100’ Power Cord

OWS LED Dock Lights with Interchangeable Lens

This is a great option if you like multiple color options. High quality 36 watt LED lights offer tons of light around a dock or submersed around a dock. This light comes standard as clear, but you can add a blue, red or green lens cover to add extra ambiance. Perfect for the holiday season!

- Item # LIG0446 36 watt LED Underwater Light 50’ cord
- Item # LIG0449 Blue Lens Cover
- Item # LIG0447 Red Lens Cover
- Item # LIG0448 Green Lens Cover

Note: Longer cord lengths and multiple interconnected lights are available. All are 115v with a 3 prong plug.
Lake & Pond Dock Packages

If you’re looking for a dock to use for swimming, fishing or boating, then we have several dock options to meet your needs. We offer two types of docks. The first is a maintenance free package that includes everything you need to build your own dock. The second option is a Do It Yourself dock where we supply a kit that includes the floats, hardware and plans. You just need to purchase the wood.

**Low Profile** - These docks are best for ponds or in large lakes with coves that are protected from larger waves.

**High Profile** - Great for large lakes or areas prone to bigger waves.

---

**Low Profile 15’ Walkway**

- Item # DOK0261
- (400 lbs.)

---

**Low Profile Boat Dock with Walkway**

- Item # DOK0262
- (800 lbs.)

---

**Low Profile Swim Platform or Dock**

- Item # DOK0260
- (500 lbs.)

---

If you don’t mind doing a little construction, you can save a lot of money and yet get a great looking dock that will last for years. We have designed several simple and fun to build dock packages that are very functional and appealing. We supply everything but the wood.

Our swim platform can be built to measure 10’ x 10’ or 12’ x 12’. The plans and hardware are the same, the only difference is in the length of boards you purchase locally.

Our walkways are 4’ wide but can be 8’, 10’ or 12’ long. Again, the hardware is the same, the difference is in the length of boards you use. As far as lumber goes, most people will use pressure treated joists or runners and pressure treated or composite deck boards.

**Each kit includes:**

- High quality rotation molded floats filled with expanded polystyrene for optimum flotation
- Hot dipped galvanized and stainless steel connectors for long life
- Hinge connectors so everything pivots as the water table goes up or down.
- Set of plans for installation

---

**Do It Yourself (DIY) Dock Packages**

- 10’ x 10’ Dock or Swim Platform
  - Item # DOK0258
  - (340 lbs.)

- 4’x8’ Walkway
  - Item # DOK0259
  - (180 lbs.)

---

**4 Step Aluminum Lift Ladder**

- Item # DOK0484

---
**Geese Away**

*Canada Geese* settle on golf courses, private ponds, and commercial retention ponds and remain only to create a nuisance. Each goose drops two to four pounds of excrement daily and creates tremendous noise.

_AwayWithGeese_ will have an immediate impact on non-nesting geese. Unfortunately, there will be a delayed impact on nesting adults with goslings. If you are not satisfied with product performance after 90 days of use, then, Outdoor Water Solutions will authorize the return of the product for a full refund. _AwayWithGeese_ is warranted against defects in material and workmanship for 2 years from date of purchase.

**Features include:**

- Disrupts geese sleep patterns causing them to move to another pond.
- The product works at night, 7 days a week.
- Solar power recharges batteries - no changing batteries or running electricity to the site.
- Maintenance free
- Environmentally safe and effective
- Amber light barely noticeable to humans and pets
- Solves Geese Problems quickly

Works on line of sight for effective coverage up to 75 yds from placement. (over 3 ½ acres).

---

**New Products**

---

**Fish & Turtle Traps**

**Turtle Traps**

A high quality sunbathing turtle trap with an aluminum frame that ensnares turtles as they try to sun themselves. This sturdy trap stays afloat by using watertight floats mounted on both sides of the trap. Once deployed, turtles will walk onto the ramp and then fall into the escape proof cage. Easy to use and set up and works year after year. No bait required.

**Catfish Traps**

The new Outdoor Water Solutions catfish traps are in! This trap uses high grade galvanized wire, not found in other brands, and is able to stand up to the toughest catfish while also resisting the harshest of environmental conditions. Comes completely rust and maintenance free. This unique trap catches catfish by baiting them into a three door system that prevents them from escaping. Any type of catfish bait placed in a cheesecloth or pantyhose works.

**Baitfish Trap**

The Outdoor Water Solutions Perch Trap is designed to catch any type of bait fish or perch you need. Using a system not unlike our Catfish Trap, the Perch trap catches inbound fish in a two funnels on either side! Once in, fish cannot get out due to a unique resealing entrance that prevents them from escaping. Baiting the trap consists of using simple bread crumbs or cornmeal inside of pantyhose.

**Crawfish Trap**

The brand new Outdoor Water Solutions crawfish trap is good for any day outdoors. Whether the occasion be for serious catching, or just plain simple fun, this trap is right for you. The unique design makes it unlike other crawfish traps in that it can handle high volume and resist rust. The long yet flat design of this trap allows for serious crawfish trapping without the trap bending or breaking. This, coupled with the tough galvanized wire design, allows your trap to stand up to just about any harsh conditions imaginable. 12” x 12” x 5”.

**Water Based Unit**

Item # LNG0266 (6 lbs.)
Backyard Windmills

**Product Benefits:**
- Sturdy 4 leg tower design
- 1 piece rotor head for ease of assembly
- Simple, fast and safe anchoring system using ground stakes (provided in package).
- Structurally strong tower for strong winds
- Windmill is sold for ornamental purposes
- There is a one-year manufacturer’s warranty
- Made of 16 gauge and 18 gauge galvanize steel

**OWS Backyard Windmill™**

Enjoy the authentic ornamental windmill design as it turns in the wind and is a pleasing addition to any outdoor setting. Available in a variety of finishes, including galvanized, red & white, green & yellow, and more. Designed with the same high-quality standards as our full-scale windmills and designed to weather the elements. Also available in a “new” wood version.

**Wood Backyard Windmills**
- High quality wood windmill that has been pre-cut, pre-drilled and stained.
- Small windmills measure almost 10’ tall with a 30” fan blade
- Large windmills measure almost 14’ tall with a 40” fan blade
- Easy to assemble – no drilling or cutting required
- Easy anchor system included

**Metal Backyard Windmills**
- High quality galvanized steel windmills designed to last
- Small windmills measure 8’3” tall x 2’ wide with a 27” fan blade
- Large windmills measure 11’6” tall x 2’8” wide with a 30” fan blade
- Durable powder coat finish on many styles
